I'm in first year in FISA Mechanical and Transports at the UTBM, and I'm looking for an internship abroad for 12 weeks (from 31 August to 20 November 2026 ideally). Especially in a design office. I'm interested in automotive, aerospace, naval or railway industries. I'm curious, motivated and I will do my best to meet your expectations.

EDUCATION

Mechanical and transport engineering degree

Since September 2025

UTBM Belfort-Montbéliard

I'm in apprenticeship at UTBM during 3 years in a design office.

BTEC Higher national diploma

From September 2022 to July 2025

UIT of Rennes Rennes

Mechanical and production engineering

General baccalaureate

From September 2021 to July 2022

Lycée Jean Brito Bain-de-Bretagne

Specialisations :

- Mathematics
- Engineering sciences

PROFESSIONAL EXPERIENCE

Apprenticeship in a design office

Since September 2024 **(1 year)**

AKKODIS Cesson-Sévigné

- Tooling design on CATIA V5 for the body in white production line
- Preparation of calculation documents and design support
- Process and body in white tooling studies
- Attendance at meetings (in English) with suppliers and customers
- Development of VBA macros for Excel and CATIA V5 automation

Internship in a design office

From January 2024 to March 2024 **(2 months)**

CNH Coëx

- Designing a new lubrication system for grape and olive harvester
- Meeting with suppliers

SKILLS

CAD experience

- Catia V5
- Creo 7
- SolidWorks
- TopSolid

Technical drawings

Experience in traditional and CNC machining

- Milling machine
- Turning Machine
